

Tatiana Borda

SOFTWARE DEVELOPER

About me

I am fullstack developer who specializes in JavaScript. I have experience building complex web applications with Java and React. In addition, I develop projects with Solidity and I'm very into Web3. In my free time, I create tech content on my Youtube channel, contribute on web3 communities and enjoy nature.

Experience

SOFTWARE DEVELOPER
SANTANDER TECNOLOGÍA | AUGUST 2021 - PRESENT

I am in charge of making the migration of different old services into microservices I use Java to code and Swagger to document them, also I develop the frontend of some core apps using React.

FRONTEND DEVELOPER
AUTOCITY - GRUPO TAGLE | JULY 2020 - JULY 2021

I worked implementing new features, performing code reviews, tracking down issues and helping my coworkers. I wrote code in LESS, JAVASCRIPT, REACT, REDUX/REDUX SAGA

JAVASCRIPT TUTOR
CODERHOUSE | NOVEMBER 2020

I was a tutor of 20 persons of all over Latin America, I worked clearing up doubts about Javascript and helping them to deal with frustration of being new at coding.

WEB DEVELOPMENT TEACHER
MET CBA | SEPTEMBER 2020

I participated as a teacher in a virtual bootcamp for 120 women from all over Argentina. I taught modern technologies as HTML and CSS, I accompanied women in the layout of their first web app.
